

LIBROS Y CAPITULOS DE LIBROS

- Agudo, L.M. & Mangas, J. 2015. Main geomorphological features in the Canary Current Large Marine Ecosystem. In: L. Valdés, L. & I. Déniz-González (eds.) *Oceanographic and biological features in the Canary Current Large Marine Ecosystem*. IOC-UNESCO, Paris. IOC Technical Series, No. 115, pp. 23-38.
- Calero, B., Ramil F. & Ramos, A. 2017. Echinoderms of the Mauritanian deep-sea waters. In: Ramos, A., Ramil; F. & Sanz J.L. (eds). *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 445-480. Springer, Dordrecht.
- Castillo, S., Ramil, F. & Ramos, A. 2017. Composition and distribution of epibenthic and demersal assemblages in Mauritanian deep waters. In: Ramos, A., Ramil; F. & Sanz J.L. (eds). *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 317-354. Springer, Dordrecht.
- García-Isarch & E. Muñoz, I. 2015. Biodiversity and biogeography of decapod crustaceans in the Canary Current Large Marine Ecosystem. In L. Valdés, & I. Déniz-González, eds. *Oceanographic and biological features in the Canary Current Large Marine Ecosystem*. Paris, IOC-UNESCO. IOC Technical Series, No. 115, pp. 257-272
- García-Isarch, E., Matos-Pita, S.S., Muñoz, I., Mohamed, S. & Ramil, F. 2017. Decapod assemblages in Mauritanian waters. In A. Ramos, F. Ramil & J.L. Sanz, eds. *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 355-392. Dordrecht, Springer.
- Gil, M. & Ramil, F. 2017a. Hydrozoans from Mauritanian deep waters. In: Ramos, A., Ramil; F. & Sanz J.L. (eds). *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 419-444. Springer, Dordrecht.
- Pelegrí, J.L., Peña-Izquierdo, J., Machín, F.J., Meiners, C. & Presas-Navarro, C. 2017. Oceanography of the Cape Verde Basin and Mauritanian Slope Waters. In A. Ramos, F. Ramil & J.L. Sanz, eds. *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 119-154. Dordrecht, Springer.
- Ramil, F. & Ramos, A. 2017. A global overview on biodiversity of bathyal megabenthos off Mauritania. In A. Ramos, F. Ramil & J.L. Sanz eds. 2017. *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 277-316. Dordrecht, Springer.
- Ramil, F., Ansín Agís JA, Gil M. & de Matos-Pita S.S. 2017. Filo Cnidaria. Consellería do Mar, Xunta de Galicia. Santiago de Compostela, 173-191.
- Ramos, A., Ramil, F., Mohamed, S. & Barry, AO. 2015. The benthos of Northwest Africa. In L. Valdés, & I. Déniz-González, eds. *Oceanographic and biological features in the*

- Canary Current Large Marine Ecosystem. IOC-UNESCO, Paris. IOC Technical Series, No. 115, pp. 227-240.
- Ramos, A., Ramil, F. & Sanz, J.L. (eds.) 2017a. *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, Dordrecht, Springer. 683 pp.
- Ramos, A., Ramil, F. & Sanz, J.L. 2017b. Deep-sea Ecosystems off Mauritania: An Introduction. In A. Ramos, F. Ramil, & J.L. Sanz, eds. *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 1-52. Dordrecht, Springer.
- Ramos, A., Sanz, J. L., Agudo, L. M., Presas, C. & Ramil, F. 2017c. The giant cold-water coral mounds barrier off Mauritania. In A. Ramos, F. Ramil & J.L. Sanz, eds. *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 481-526, Dordrecht, Springer.
- Ramos, A., Ramil, F., Sanz, J.L. & Presas-Navarro, C. 2017d. A First Insight into the Megabenthos of Mauritanian Canyons. In A. Ramos, F. Ramil & J.L. Sanz, eds. *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 527-560, Dordrecht, Springer.
- Ramos, A., Sanz, J.L., Pelegrí, J.L., Fernández-Peralta, L., Pascual, P., Ramil, F., Castillo, S., García-Isarch, E., Rocha, F., Gil, M. & Calero, B. 2017e. An overview on biodiversity and ecosystems off Mauritanian deep-waters. In A. Ramos, F. Ramil & J.L. Sanz, eds. *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 615-660, Dordrecht, Springer.
- Ramos, A., Ramil, F., García-Isarch, E., Matos-Pita, S.S., Rocha, F., Castillo, S., Calero, B., Gil, M., Moctar, S.M.M. 2020. Biodiversité et habitats benthiques dans la marge continentale mauritanienne: campagnes *Maurit* et CCLME-FAO. In: Khallahi B., H. Taleb, C. B. Barham, B. M. Habibe, E. A. Kane et M. E. Bouzouma (Eds) *Aménagement des ressources halieutiques et gestion de la biodiversité au service du développement durable*. Rapport du Neuvième Groupe de Travail de l'IMROP, Nouadhibou, Mauritanie, 11-14 février 2019, 37-49 (+Anexo 1).
- Rocha, F. & Cheick, I. 2015. Cephalopods in the Canary Current Large Marine Ecosystem. In: L. Valdés and I. Déniz-González, eds. *Oceanographic and biological features in the Canary Current Large Marine Ecosystem*. Paris, IOC-UNESCO. IOC Technical Series, No. 115, pp. 245-255.
- Rocha, F., Fernandez-Gago, R., Ramil, F. & Ramos, A. 2017. Cephalopods in Mauritanian waters. In A. Ramos, F. Ramil, & J.L. Sanz, eds. *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 393-418, Dordrecht, Springer.
- Sanz, J.L., Maestro, A. & Agudo, L.M. 2017a. The Mauritanian margin. Bathymetric and geo-morphological characteristics. In A. Ramos, F. Ramil & J.L. Sanz, eds. *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 53-118, Dordrecht, Springer.

Sanz, J.L., Agudo, L.M., Ramil, F. & Ramos, A. 2017b. Wolof's knoll: A small seamount on the Mauritanian continental slope. In A. Ramos, F. Ramil & J.L. Sanz, eds. *Deep-sea ecosystems off Mauritania: Research of marine biodiversity and habitats in the Northwest African margin*, pp. 561-592, Dordrecht, Springer.
